

PARENT CARERS TOGETHER

Bournemouth Christchurch Poole

Development & Behaviour Strategy Group

The Development and Behaviour Pathway for children, young people and families in Bournemouth, Christchurch and Poole and the wider Dorset area has been developed to help clarify the steps that should be taken when someone is worried about a child or young person's development or behaviour. These issues can arise for a number of reasons including social, emotional and medical, or a combination of these.

It has been developed in partnership with parents and carers, with input from professionals working in health, education and social care and is based upon findings from local and national research as well as NICE guidelines.
